

Comments on the proposed Comcast – Time Warner Merger

Comcast – Time Warner Cable, MB Docket 14-57

I am vigorously opposed to Comcast being permitted to become even larger and more powerful than it already is.

When I used Comcast services I found their cable TV service to be of poor quality with the picture frequently pixilating in good weather and bad.

When I switched carriers and hand carried my set-top box, remote and modem to Comcast and received a receipt, Comcast tried to charge me for two weeks beyond the time I no longer had the equipment to receive their services.

This morning I took cell phone photos of the Comcast cable boxes on my street, Greenfield Ct in Lanham, MD, and one from around the corner on Greenfield Drive. The boxes are inconsistent in style, made of shoddy materials, and maintained in horrible eyesore condition.

In no way should this terrible company be given the opportunity to become more monopolistic, powerful, arrogant, and overcharging. Do not permit the travesty of this merger to occur.

Charles Reiher

Comcast Box on Greenfield Drive

The following are the Comcast cable boxes on Greenfield Court.
